All of Britain is celebrating 60 years of The Queen's reign, her Diamond Jubilee! Celebrations throughout Britain are taking place June 2 through June 5, including a concert at Buckingham Palace and a Thames Diamond Jubilee Pageant, where over a thousand boats will float on the Thames River. What a spectacular site that will be! The coronation of Her Majesty Queen Elizabeth II took place on June 2, 1953. She is only the second British Monarch to reign for 60 years; Queen Victoria celebrated her Diamond Jubilee in 1897.
